

Credentialing Program in Practical Functional Assessment and Skill-Based Treatment of Severe Problem Behavior

Level	Focus	Process / Outcome Requirement	Evidence / Documentation	Person is able to:
1	Education	Completed 10-credit on demand course with 100% correct on assessments, attended 2-day live workshop, or participated in a live course with an FTF instructor.	Certificate of completion or workshop/live course certificate of participation dated January 1, 2019, or later.	Be an implementer of the process under direct supervision of a credentialed supervisor.
2	Application	Completed application exercises for at least one client in a design session with FTF (e.g., design session, coursework, weekly consultation).	Detailed completion of assessment and treatment design rubric for a specific case (workbook upload).	Design and implement an assessment and treatment plan for a client with guidance and direct supervision from a credentialed supervisor.
3	Implementation <i>(Support)</i> <i>This level may be skipped.</i>	Actively and routinely participated in one or more case consultation processes as secondary collaborator (but was not the lead on the case).	Verification letter from FTF consultant and at least one of the following: Data sheets or graphs, pre-, process, and post video documentation, weekly SBT meeting form (i.e., documentation of 8 weeks or more of support implementation).	Design and directly implement the process under the supervision of a credentialed supervisor.
4	Implementation <i>(Lead)</i>	Actively led one or more case conceptualizations, served as an active implementor, and ongoing effective management of all stakeholders evolving priorities and concerns.	Verification letter from FTF consultant and at least one of the following: Data sheets or graphs, pre-, process, and post video documentation, weekly SBT meeting form (i.e., documentation of 8 weeks or more of lead implementation).	Independently design and directly implement the process with a client through intermittent supervision of a credentialed supervisor.
5	Advanced Education and Application	Completed at least 3 other courses relevant to PFA and SBT and completed application exercises for at least one client for maintenance and generalization strategies in a design session with FTF.	Certificates of completion or workshop certificates of participation and detailed completion of maintenance and generalization design rubric for a specific case (workbook upload).	Design and implement treatment extensions with guidance and intermittent supervision from a credentialed supervisor.
6	Supervision	Attended a Train-the-Trainer workshop with FTF and simultaneously coached at least two new implementation teams (e.g., lead and support) from case conceptualization and planning through implementation of PFA and SBT.	Verification letter from FTF consultant and at least one of the following: Data sheets or graphs; pre-, process, and post video documentation, weekly Train-the-Trainer (TTT) meeting form (i.e., documentation of 8 weeks or more of indirect supervision).	Independently design and provide supervision (indirect support) of process implementation including treatment extensions.
7	Consultation	Completed FTF training program and facilitates the consultation process for client/implementer dyads in context of weekly FTF clinical meeting support.	Recruited by FTF and accepted into the fellowship program or full-time employment, training checklist completion, and, at least, quarterly presentations in FTF clinical meetings.	<u>Consult with others to become implementers and supervisors of the process.</u>

➤ Education and Licensure: Credential levels 6 and 7 require an independent practitioner's credentials such as BCBA, SLP, Licensed Special Ed Teacher, or LCSW/LMSW.
